

The image shows a close-up, low-angle view of a modern building's exterior. The facade is a vibrant golden-yellow color with a complex, three-dimensional honeycomb or cellular pattern. Several balconies with curved, white railings and glass balustrades are visible, extending from the building. The balconies have a matching golden-yellow ceiling. The overall aesthetic is one of high-end, futuristic architecture.

ULTIMATE LUXURY
AT THE HEART OF ISTANBUL

THE LUXURY LIFE OF UNLIMITED PRIVILEGES

By Turkey's one of the most trusted developers', this move-in-ready project, perfectly located in the heart of Istanbul's European side, Taksim, offers its residents to have an ultra-luxurious life. With its unique location on Taksim, Beyoğlu, it surely guarantees to add entertainment, culture, art, sightseeing, food and shopping at the center of your client's life.

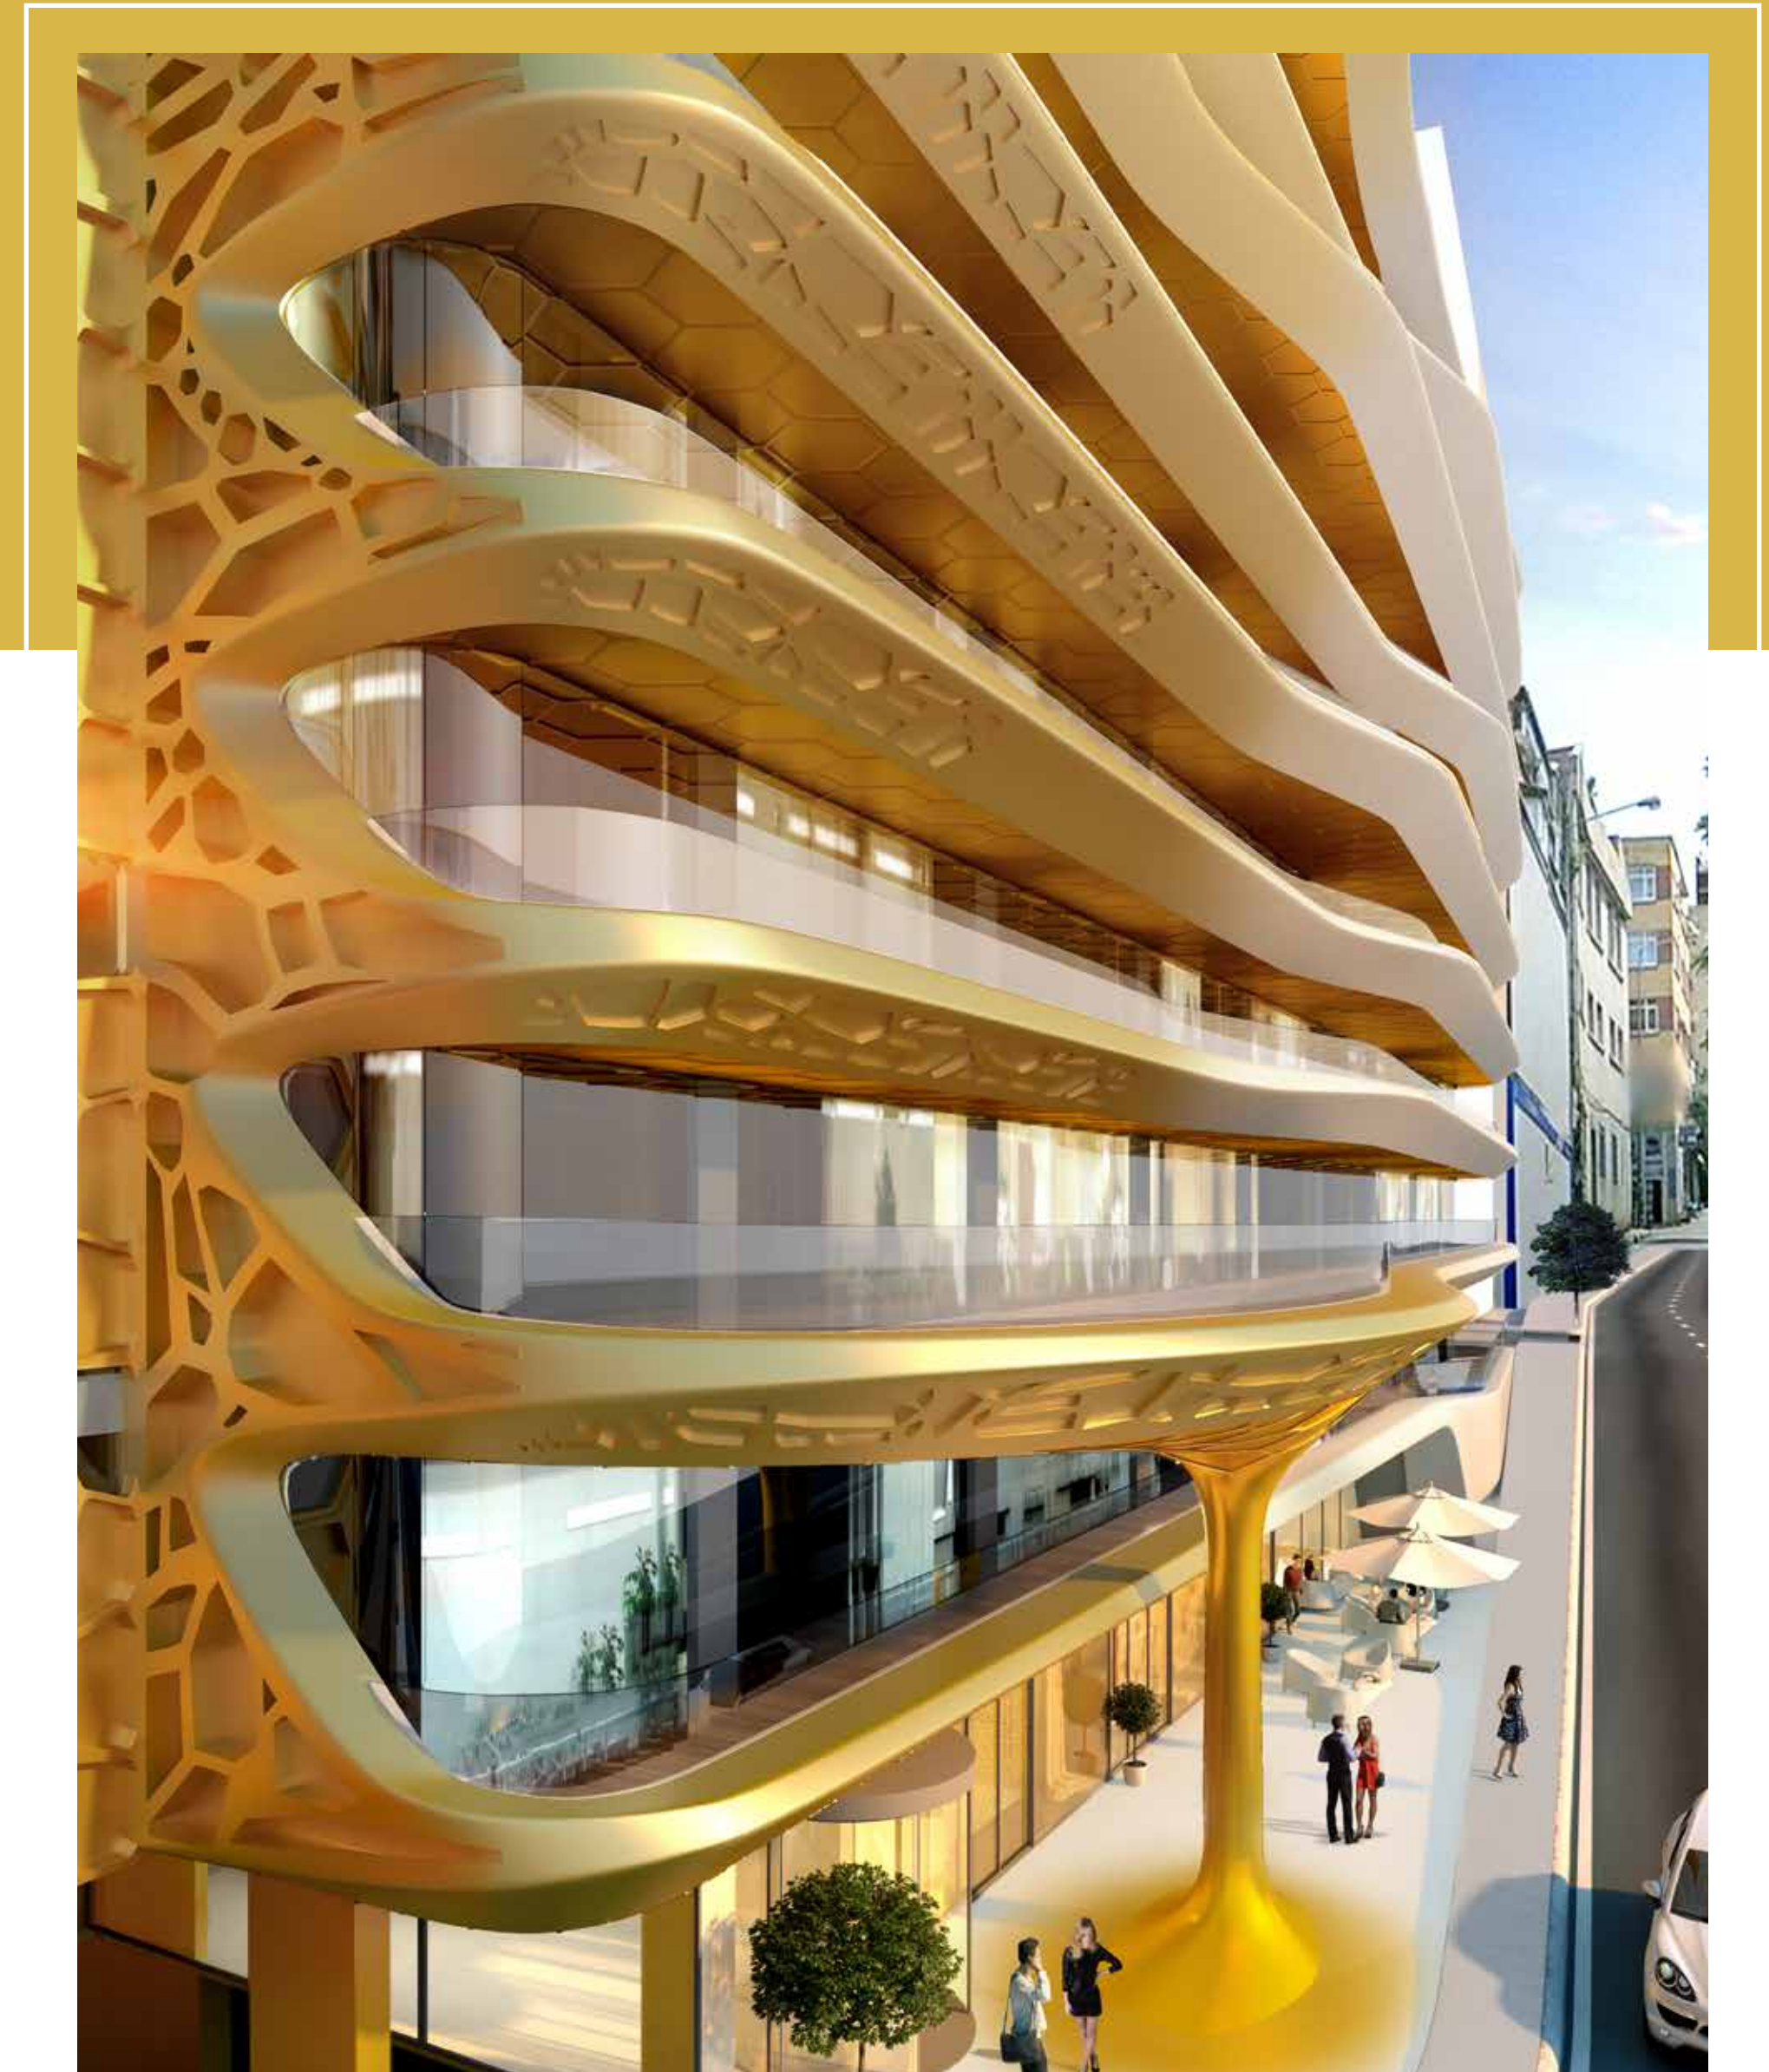

WALKING DISTANCE TO THE HEART OF ISTANBUL

Taksim is the first place that comes to mind when you think of Istanbul. It is the choice of local and foreign tourists all year long and a dream place to live by many. This project is located right in the middle of Istanbul, and in walking distance to landmarks of Istanbul, such as: Taksim Square, Nişantaşı, Beşiktaş, Karaköy, Gezi Park, Sıraselviler Street and Istiklal Street. Istiklâl Street, which is one of the most important streets of the world with a length of 1,650 meters extending from Taksim to Tünel, is famous with its nostalgic tram, historical passages, inventive streets that attract curious travelers, art galleries, theaters, shopping, entertainment and tasty venues.

UNIQUE ARCHITECTURE

The project's architecture is a work of innovative architecture that exposes the panoramic view of Istanbul with all its beauty, offers a spacious atmosphere in its apartments with large terraces on the upper floors. In addition to its modern and original architecture, the large glass surface applied to the entire structure makes the daylight and compelling views an essential part of your client's life. Unlike any other in architecture, this project was built based on the unique design of honey combs; a unique and new breath in the architectural approach with the signature of the project itself.
